Murali Kotha

Chittoor, Andhra Pradesh | muralikotha37@gmail.com | +91-8008899357

Summary

Final-year B.Tech candidate specializing in MERN Stack (MongoDB, Express.js, React, Node.js) and frontend development. Skilled in creating responsive web interfaces with React, JavaScript, HTML, CSS, and Bootstrap, integrated with scalable backend solutions. Proficient in Python and SQL, with machine learning experience. Fluent in English and Telugu, passionate about building user-focused web applications.

Education

Sreenivasa Institute of Technology, Chittoor   2021 – Present
B.Tech in Artificial Intelligence and Machine Learning

Sri Chaitanya Junior College, Andhra Pradesh   2019 – 2021
Board of Intermediate Education, MPC – 75%

Jeevan Jyothi High School, Andhra Pradesh   2018 – 2019
Board of Secondary Education (BSEAP) – 92%

Internships

MERN Stack Developer Intern, Infoyieldx   Jun 2025 – Aug 2025

→ Developed full-stack applications using MongoDB, Express.js, React, and Node.js, with a focus on responsive React frontends.
→ Built RESTful APIs and optimized MongoDB queries to support dynamic, user-friendly interfaces.
→ Led frontend development for a company website, ensuring accessibility and cross-browser performance.

Machine Learning Intern, SkillRaace   Jun 2024 – Jul 2024

→ Created classification models (Decision Tree, Naive Bayesian) using Python and libraries like NumPy and Pandas.
→ Delivered predictive solutions for real-world applications in business and healthcare.

Projects

Company Website (Infoyieldx)   2025

→ Built a MERN stack company website with a responsive React frontend to enhance online presence.
→ Developed secure RESTful APIs using Express.js and Node.js, integrated with MongoDB.

Food Munch Website   2024

→ Created a responsive food ordering platform using HTML, CSS, Bootstrap, and JavaScript for seamless UI/UX.

Skills

→ **Frontend**: React, JavaScript, HTML, CSS, Bootstrap
→ **MERN Stack**: MongoDB, Express.js, React, Node.js
→ **Programming**: Python, SQL
→ **Tools**: NumPy, Pandas, RESTful APIs
→ **Languages**: English (Fluent), Telugu (Fluent)

Interests

→ MERN stack development, frontend UI/UX, open-source contributions
